CAGR of Food Processing Industry: 14.6%

FOOD LOGISTICS 2021

Choose the right platform to meet your customers

The Indian food & beverage industry is one of the fastest growing industry sectors in India and is expected to grow at an encouraging pace of ~20% over the next decade. This immense growth in food processing, dairy & beverage industry has created a huge demand for efficient logistics, transportation & warehousing systems.

The cold chain industry is forecasted to grow at a CAGR of 19% during 2017-2022 on the back on several schemes introduced by MoFPI – Government of India to build a sustainable cold chain network and reduce wastage of food in the country. Heavy investments are being made by various Indian and multinational companies to boost sales and build market share in this fast-growing industry.

Koelnmesse YA Tradefair Pvt. Ltd. is happy to announce the 3rd edition of Food Logistics India - An international exhibition on logistics, transportation and warehousing for the food & beverage industry, which is a subsegment to India's leading supplier fair for the food & beverage industry, ANUTEC - International FoodTec India and PackEx India - An international exhibition on technology and packaging material.

Exhibitor Profile:

Cold chain:

- ◆ Cold rooms and cold storage
- ◆ Multi-product cold rooms
- ◆ Freezing and chilling technology
- ◆ Insulation material & solution providers
- ◆ Automation solution

Transportation & logistics:

- ◆ Commercial vehicles
- ◆ Temperature controlled vehicles
- ◆ Reefer trucks
- ◆ Logistics service providers
- ◆ Supply chain solution providers
- ◆ 2PL, 3PL, 4PL, 5PL service & solution providers

Warehousing & building material

- ◆ Pre-fab engineering
- ◆ Warehousing doors, shutters & gates
- ◆ Flooring and roofing solutions
- ◆ Insulation materials
- ◆ Power solutions

Association & government bodies

Storage and material handling:

- ◆ Forklifts, cranes & lifts
- ◆ Pallets & racking service and solution providers
- ◆ Automated storage systems
- ◆ Automated material handling

Reefer solution:

- ◆ HVAC & reefer technology
- ◆ Multi-temperature controlled solutions
- ◆ Compressor and condensers
- ◆ Humidification and de-humidification
- ◆ Heat exchanger
- ◆ Evaporators & coolers

Automation & robotics:

- ◆ Control systems
- ◆ Remote monitoring system
- ◆ AIDC & RFID solution
- ◆ Robotics solutions & services
- ◆ Fleet management & Tracking system
- ◆ Conveyor systems
